LIB
SCH

RECENT PLAYS BY AMERICAN AUTHORS.

Chiefly those published since the issue of the list made by the Library in 1917.

Compiled by Irene Fisse.

First Assistant, Circulation Department.

Besides the intellectual and artistic life of a nation, its commercial achievements are but incidents, and there is no vehicle so powerful and so competent to carry the meaning of America to our assimilated and our unassimilated population as the drama.—*A. H. Quinn.*

INTRODUCTION.

In 1917, at the request of the Drama League, the library compiled a complete list of plays then on its shelves. The plays included in the following list are those by American authors which have been added since that date.

I have called this a "Working list of plays by American authors," for I mean it to be a useful guide of available plays for those interested in the modern American drama, either for production on amateur stages, or for reading.

For the benefit of amateur producers the list has been divided into four main groups. One-act plays requiring both men and women; plays for men; plays for women; and longer plays. A fifth group more suitable for reading than production has been included. Many of the latter may however be used for acting purposes, and vice-versa many of the former are well worth study. In all cases the number of characters of each sex, the number of scenes required, and the number of acts in each play has been noted.

Finally and most emphatically, let me say that all of these plays are fully protected by copyright and may not be used for any public performance, either reading or acting, amateur or professional, without the written permission of the author or his agents and the payment of a royalty. These terms are clearly stated at the front of each volume, and must not be disregarded.
